EIGHT PAGES.

MARKET IS EASIER.

Opens with a Rally, Followed by a Slight Decline.

Clearing-House Loan Committee Issues \$1,350,000.

No Occasion to Close the Stock Exchange.

The galleries of the Stock Exchange were crowded this morning when the gong sounded for the opening, and business commenced with much less excitement than had been anticipated, although a considerable degree of fever-

ishness was manifested. The opening was rather irregular nome of the leading stocks showing a decine and others an advance over last night's closing prices, while the rest were practically unchanged.

the rest were practically unchanged.

Transactions were not heavy, but the market showed considerable activity.

Shortly after the opening there was a raily all along the line of from 1-2 to 11-2 per cent, from the first prices, with the exception of Lackawanna, which was unaccountably weak.

This stock closed yesterday at 131, and the first sale this morning was made at a decline of 1-2. Subsequently the price dropped to 127, to the surprise of except one, and the movement could not be explained. The cest of the market declined in sympathy, but began to pick up again when Lackawanna advanced again to 130. The fluctuations in this stock were rapid, and before 11 o'clock it was selling again at 181-2. Haute was a feature of the market. Yesterday the stock sold down to 70 and closed at 73. The first sale this morning was made at the latter figure, but from this point onward the price advanced rapidly in the bidding, until sales were made at 83. Soon after 90 was bid and 100 asked.

It will be remembered that it was the

will be remembered that it was the

arp decline in this stock which caused arp decline in this stock which caused e failure yesterday of H. J. Nicholas Co. and J. B. Dumond, whose loans are secured chiefly by Evansville as liateral. The banks, becoming alarmed the sudden drop in its value, called eir loans and forced both firms to the sil.

their loans and forced both firms to the wall.

In the rest of the list Chicago Gas advanced 2 points, to 461-2; Big Four 4 points, to 39; Burlington, 11-2 points, to 711-8; Rock Island I point, to 541-2; Cheneral Electric 3 points, to 421-2; Lake Shore 2 points, to 108; Manhattan 31-2 points, to 1041-2; Erie preferred 3 points, to 18; Omaha 11-4 points, to 251-4, and Western Union 17-8 points, to 253-8, during the first hour of trading. The Governors of the Stock Exchange held a meeting this morning at which they decided not to consider at all the proposition to close the Stock Exchange during the present crisis, a plan which is said to have been advocated by a number of brokers and suggested to the Governors as a means of alliaying the prevaling anxiety and preventing any

to 7 points were made in all those stocks.

Manhattan took the lead in the advance and jumped up quickly to 168, while General Electric rose 3:-2 points to 44. Lackawanna also recovered all that had been lost during the early hours of trading, and sold again at 131, and Lake Shore advanced 23-4 to 108 3-4.

All the London houses this morning reported good investment orders for small lots, and one firm stated that it had bought 2,000 shares for the Continent, chiefly on orders cabled from banks in Germany and Switzerland. This was generally regarded as an indication that foreigners believe that prices have now reached such a limit in the New York market that they may safely come in as buyers.

The course of the market afforded

market that they may safely come in as buyers.

The course of the market afforded great and much-needed relief from the terrible strain of the past few days, and the satisfaction which was felt was manifested very clearly among the brokers on the floor of the Exchange. It was also shown, to a certain extent, in the money market, which is to be taken as the surest index of the financial situation.

in the money market, which is to be taken as the surest index of the financial situation.

The high borrowing rates of yesterday did not obtain to-day, although the inquiry was still urgent.

New York Central and Burlington lent at 1-16 a 1-8 for use: Lackawanna and Northwest at 1-32 Rock Island, Lake Shore and Western Union at 1-14, and Erie and Louisville & Nashville flat.

Money on call was stringent, and lent at 1-8 per diem and interest, equal to about 46 per cent, per annum. This was due to the contraction of loans by institutions having to supply the heavy drain of currency to the interior.

The discrimination against certain securities as collateral for loans also had a tendency to make money tight.

Very little trading was done to-day in Erie stocks, though prices advanced slightly over those of yesterday, in sympathy with the general market.

Nothing further was learned in the street regarding the proposed reorganization of the Company, but in view of its financial condition there seems to be nothing else in store for it. With \$4,000,000 out of a ficating debt of over \$6,000,000 overdue, and the only alternative of borrowing money at 20 per cent., it could not long escape collapse.

In fact, it now appears that the road has been tottering on the verge of bankruptcy for a long time. It is said that all the banks which have claims against the Company have ample security in the way of collateral, but in order to prevent it from being sacrificed, assessments will have to be levied upon the security holders.

According to the programme which is said to have been mapped out by the bears in spite of the absence of the receivers from the city, the reorganization.

A full account of all financial affairs will be found in the Sporting Edition of "The Evening World."

spectively.

The course of the market to-day with respect to Evansville & Terre Haute was the result of the announcement of the reorganization of the Board of Directors, which did not come out until after the close of the Board yesterday.

rectors, which did not come out until after the close of the Board yesterday.

It appears that the Standard Oil people have secured control of the property, and in the new Board of Directors appear the names of W. H. Tilford, appears the names of W. H. Tilford, the M. Tilford, both of whom are connected with the Standard Oil Company, the former as its Treasurer, and C. P. Huston, in the place of Heman Clark, H. I. Nicholas and Thomas W. Evans, who have resigned C. C. Baidwin has also resigned his position as Chairman of he Pinance Committee, and De J. Mackey, formerly President of the Company, was selected in his place. Mr. Mackey was also chosen Chairman of the Board of Directors.

No definite statement has yet been obtained from the firm of H. I. Nicholas, which failed yesterday, nor will Lawyer William Nelson Cromwell, their nasignee, give any further particulars with regard to assets and liabilities.

It is understood, however, that all the creditors of the firm, with the exception of one for whom some of the Evansylle stock was closed out yesterday afternoon under the rule, have informally agreed not to press matters or sacrifice the collateral held by them for the present.

If the market improves there is every

The tone of the market was very steady, and a fair amount of business was done.

Big Four declined 1 point, to 29; Chicago Gas, 1-2; to 46 1-2; Rurlington 1 1-8, to 70 1-2; Lackawanna 1 3-8, to 129 5-8; General Electric 2 1-4, to 41 3-4; Jerrey Central 3-4, to 84 1-2; Lake Shore 3-4, to 183 1-4; Manhattan 3, to 166; Missouri Pacific 5-8, to 18; Northwest 1 5-8, to 87 7-8; New England, 1-4 to 20 1-8; New York Rock Island 1 1-4, to 54 1-2; St. Paul 1-2, to 83 3-4; Sugar 1 1-2, to 67 1-2, and Western Union 1 1-8, to 83 3-4.

The sales of stocks up to noon aggregated 183 209 shares of listed and 19,000 shares of unlisted securities.

The feature of the trading to-day was the enormous absorption of odd lots of stocks, indicating that small investors are coming into the market in large numbers, and picking up bargains at the present low prices.

The oldest traders at the Stock Excending that the present low prices.

The court foundth at no responsibility attached to Capt. Bourke for the disaster and he was therefore acquitted of so large a number of these small lots.

The demand is not confined to any The demand is not confined to any

during the present crisis, a plan which is said to have been advocated by a number of brokers and suggested to the Governors as a means of alllaying the prevailing anxiety and preventing any further disaster.

The stringency in money has resulted in the complete demoralization of the foreign exchanges, and gold is beginning to flow freely this way from Europe. Lazard, Freres have ordered a million dollars, and it is stated that other bankers are negotiating for considerable amounts.

racy afternoon under the rule, have informally agreed not to press matters or sacrifice the collateral held by them for the present.

If the market improves there is every reason to believe that the firm will soon be on its feet again, and the upward movement of the stock to-day is most encouraging for their friends.

Although there were rumors in the sireet early this morning that two or three other railroad companies were in difficulties and might at any moment follow the course adopted by Erle. little was heard of these reports later on. Rumors were also in circulation affecting the stability of several Wall street houses, but these also were called in when it was seen that the market was on the upward turn.

The Loan Committee of the Clearing-House, at its seesion this afternoon, destin order to meet the suddenly increased stringency of the money market.

It was reported that \$4.000 shares of stock were purchased to-day for the foreign account, the stocks purchased including Erle, Athison, Ontario and Western Pacific preferred. St. Paul, Union Pacific, and Norfolk and Western preferred.

Franchise Investigation.

Explanation of Ridgway's Presence at That Particular Inquiry.

A Statement of Peculiar Interest to Brooklynites.

Ever since the Kings County Grand Jury for the month of June brought in now famous presentment, censur ing Mayor Boody and the "Cold Thirteen" members of the Brooklyn Board of Aldermen, everybody has been won-dering how it was that District-Attorney James W. Ridgway managed to drop into the Grand Jury room just at the time the alleged franchise frauds were under discussion and to prevent the bringing in of indictments.

The public has been under the im pression all along that Mr. Ridgway himself took no particular interest in franchise matters; that his assistant looked after that as well as all other cases, and that he merely showed him self wherever a knotty point of law was being questioned by the Grand Jury and that he would then give it the proper interpretation.

Mr. Ridgway himself, perhaps, never gave out that statement, but it is certain that he did allow that impression to go abroad, and so far as the reports published were concerned, Assistant District-Attorney Callahan's shoulders had to bear the responsibility for th

wrangles in the Grand Jury room. When Judge Moore, on the application of Mayor Boody, ordered the giving out of the evidence upon which the Grand Jury found its presentment, it was Mr Ridgway himself who carefully edited the type-written copy. In not one sin-gle place does his name appear as hav-

Mr. Callahan, however, who, by the Mr. Callahan, however, who, by the merest accident did question Lawyer William J. Gaynor, gets full credit for having done so, and on the face of the testimony as published, it would appear as if he and he alone had conducted the investigation. The very opposite appears to be the fact.

The whole story was given to an "Evening World" reporter this morning by Mr. Michael Kelly, one of the Grand Jurors, and the statement coming from such a source will prove interesting. He throws much additional light upon this mysterious transaction, and taxpayers are likely to do a heap of thinking in consequence.

mysterious transaction, and taxpayers are likely to do a heap of thinking in consequence.

"I have served on four Grand Juries in Kings County during the past twelve years," said Mr. Kelly, by way of preface, and I have no hesitation in saying that the men who composed the June Grand Jury were above the average in intelligence. They were nearly all business men, who had their heart in the work, and I will say right here that if I knew as much in June as I know now I would have insisted on bringing in indictments against the Mayor and Aldermen instead of a presentment, the District-Attorney to the contrary notwithstanding.

"The publication of the fact that he prevented us from bringing in indictments will, however, serve as a good lesson to other Grand Jurors, who will know how to disregard his interpretations.

"The public mind has been so con-

TWO DAYS OF COOL WEATHER. Yachte and Small Boats Damaged

by Last Night's Gale. Since early this morning a high wind-

storm has been sweeping across the city, and it promises to last, with little abatement throughout the day. The gale arose during the severe showers which visited the Middle Atlantic and New England States last night, and reached its height immediately afterwards, when it was blowing at the rate of thirty-six miles an hour.

The gale did considerable damage to small craft anchored in the bay. Many boats dragged their anchors and fouled, and were badly damaged. The gale blew down a fence of the Staten Island Yacht Club at Stapleton, and several of the yachts belonging to the fleet were badly damaged.

The heavy storms extended along the coast, and an average of .51 inches of rain fell. The temperature fell from 10 to 15 degrees east of the Mississippi, and for two days, at least, people can live in comfort. night, and reached its height immedi

n comfort. Weather Forecaster Dunn was disin-

clined to believe the report that snow fell last night on the Long Island coast. The mercury ranged from 70 to 50 de-grees at the time, and it would be im-possible for snow to reach the earth, he said, under the circumstances.

His Begus Check Case Settled Out of Court.

a rived in the city a few days ago, having been discharged from a travelling circus. Yesterday he met "Scotty" on the Bowery, and they hat several drinks.

McCarthy felt drowsy, and "Scotty" took him to the "Old Grant House," on New Bowery, and put him to bed. When he awoke in the evening his clothes were all gone, together with \$25 in money.

McCarthy kicked up a row and the proprietor gave him an old pair of trousers and a coat. He then went to Police Headquarters and told Inspector McLaughlin his story.

Nugent and McGinniss started out to look for "Scotty," and found him in less than an hour on the Bowery with McCarthy's trousers on him.

He is known as a professional "knocker-out," but none of the "medicine" was found on him.

He is known as a professional "knocker-out," but none of the "medicine" was found on him.

He pleaded guilty to-day, and before he went down to the prison he went into the reporters' room and exchanged trousers with McCarthy. None of the \$28 was recovered.

McCarthy was sent to the House of McCarthy was sent to the House of McCarthy was sent to the House of In Jefferson Market Police Court, this ington.

Mr. Rich wanted to press a charge of potit larceny of the &, but on Lawyer Goldey, the prisoner's counsel, offering to pay the money, Justice Hogan lermitted it to be settled thus out of

EX-CASHIER SHOOTS HIMSELF.

Held for Twenty-eight Years. PITTSFIELD, Mass., July 27.-E. S. mounting, and at their request Justice Frances, ex-Casnier of the Pittsfield National Bank, shot himself through the head at 10.20 this morning.

He was forced to resign his position as

Indications That It Will Approach the Epidemic of 1875.

The Cause Is Attributed to the Filthy Streets.

The health officials and physicians generally are muche oncerned over the extraordinary spread of diphtheria throughout the city.

The attention of the public has not been called to the subject before, in order that the danger might not be made greater by causing alarm. It is certain, however, that the dread disease has broken out in every section,

and that children are being carried away

at an alarming rate.

The fearful condition of the streets s admitted to be in the main responsible for this condition of affairs. The fact that the disease is prevalent not only in the closely packed tenement-houses but among the children of wealthy parents is in itself sufficient to prove that such is the case.

such is the case.

Decayed fruit ad vegetable matter, which, as "The Evening World" has pointed out, has lain for days and in some cases weeks has poisoned the atmosphere, while now there is a veritable wave of disease.

That the consequences will be fearful unless the most stringent measures are taken to prevent the further spread of the disease, the Health officials do not seek to deny. They are already at work devicing means for the purpose, and every effort is being made to stamp it out.

and There Is a Run on the Othe Banks in the City.

HELENA, Mon., July 27 .- The First National and Montana National Banks failed to open this morning. A run is now in progress on the other

banks of the city.

TWO SPOKANE BANKS CLOSE News Received Quietly and No Bus Started on Other Institutions. SEATTLE, Wash., July 27 .- A Spo-

kane special says:
"The First National Bank suspens payment yesterday afternoon. Its doors closed at 2 o'clock, and a notice was posted announcing that 'owing to conand inability to realize on securities this bank will temporarily suspend pay-

connected with the First National, was closed at the same time. In a few ninutes the news was generally known throughout the c'ty, but it was received Detective Butler, of the Tenth Pre- Forced to Resign the Place He Had quietly. There was no effect perceptible at any of the other banks. "President Giover stated that the bank had only temporarily suspended, and all depositors will be paid in full. The bank commenced business in December, 1882. Its paid up capital is 1260.000."
